To learn how to use email, including informing CSU of the email that you will be checking throughout the year, visit:

**eid.colostate.edu/gmail**

Login with your eID, then select “Change Email Address”.

Please also keep Key staff informed of your most current email address.

Make sure that you inform Colorado State University of the email account that you will be checking consistently throughout the year. Because CSU corresponds with students via email, it is your responsibility to have a “working” email with the University.
