

# KEYLEGGIAN

## KEY CIVIC/SERVICE

Join us at the Key Communities Spring Welcome Back on Monday, January 25th on Zoom!

Key Civic students have been active in their civic engagement opportunities virtually and throughout the city of Fort Collins throughout the semester. This group of students were able to be heavily involved throughout the campus community. This semester, instead of the Community Challenges competition, Key created “Key Pursuits,” a virtual competition in which many Key Civic clusters excelled.

**Cluster 1:** Cluster 1 has had the unique opportunity in their CityWorks EDU course which allows students to understand and get first hand experience of the inner workings of the City of Fort Collins. Students were able to virtually explore parts of Fort Collins and learned all about how different aspects of the city works. Other highlights of the semester were attending cluster events put on by their mentor and participating in Key Pursuits.

**Cluster 2:** Cluster 2 is supercluster made up of 26 students who are split between two mentors and all take professor Elizabeth Sink’s Multifaith and Belief Engagement course during the fall semester. The course focuses on different conversations around faith and beliefs, including various spiritual and religious traditions, as well as non-faith spiritualities. Over the course of the semester students were invited to have coffee with their mentors and professor Sink outside of class to strengthen relationships, and they even participated in a self-care day in class.

**Cluster 3** Cluster 3’s focus for the fall was on Global Poverty. Students quickly created relationships within their cluster, with their mentor, and the seminar instructor. All students in the class were able to participate in three different outdoor service days organized by their seminar instructor. When talking with students one of the biggest highlights was going to the farm early in the semester and volunteering while getting to know each other. Students were able to participate in a pumpkin painting event put on by their mentor.

**Cluster 4:** Cluster 4’s focus for the semester was on Education and Diversity. In this cluster students were able to create a large impact with the students they worked closely with in Fort Morgan. Due to COVID, students in the cluster were unable to visit Fort Morgan so they had to do all of their community - building and project creating virtually. It is clear through their presentations that the students made a significant impact on students living in Fort Morgan and attending Wiggin’s High School. The students in the cluster also participated in a variety of cluster events put on by their mentor.

We can be here for you next year, too.

## JOIN KEY PLUS!

- ▷ Take a 1-credit class OR participate in LEADS Live off campus OR in the 4th floor Braiden lofts
- ▷ Build your own Key Plus Experience
- ▷ Get access to exclusive Key Plus events

Priority Application Deadline: February 14, 2021
